MADE IN
ITALY

Inverter

Inverter technology concentrates high welding performance in a compact structure, improving welding and reducing dimensions and weights.

Multiprocess

MAX 403 is a multiprocess power source: STICK, TIG LIFT, MIG MAG.

Pulse - Double Pulse

The version with TOP 504 XM includes many different MIG/MAG synergic programs Pulse and Double Pulse for Mild Steel, Stainless Steel, Aluminium and Brasing.

ST-ARC™

ST-ARC™ is the intelligent control of the Short Arc process, capable of handling automatically all variations within the welding process. The result is a short concentrated and stable arc 100% easier to

control. The dynamic cold welding characteristics significantly lower the heat input reducing distortion, spatters, re-working and cleaning plus less weld time.

Rod-Pulse™

MAX 403 allows pulsed electrode welding with the innovative Rod-Pulse™ system. The advantages of appearance and arc control are unmatched in particular with cellulosic electrodes. The function ROD-Pulse™ is available with remote Control RCCS or Feeder Top 504 SM and XM.

Fan Control

The fans are controlled by the Power Source which adjusts their intensity based on the current and the arc on time. Ideal for avoiding contamination in harsh environments.

DSP

Digital Signal Processor digital arc control for maximum welding performance in all processes.

DFB™

Double Full-Bridge to use high performing components and possibility to work at 130KHz frequency with reduction of weight and dimension.

SMP™

STEL MODULE POWER maximum flexibility to use of any type of power components with advantages on availability and technological updating.

4 ROLLS FEEDERS

TOP 504 SM e XM are equipped with 4 Rolls feeders for a smooth wire feeding.

Technical Data

Main Voltage	400 V	Work Temperature	40°C
Phases	3	Current Range	4-400 A
Frequency	50/60 Hz	Welding Current 45% (25°C)	400 A
Real Current (35%)	19 A	Welding Current 100% (25°C)	350 A
Real Power (35%)	11,2 KVA	Welding Current 35% (40°C)	400 A
Power Factor	0,85	Welding Current 60% (40°C)	350 A
Efficiency	85%	Welding Current 100% (40°C)	300 A
No Load Voltage	70 V	Earth Clamp	70 mm ²
Degree of Protection	IP 23	Wire Feeder Rollers	4
Insulation Class	H	Length x Width x Height	1040x500x1430
Safety Approved		Weight	120 Kg

The data were collected at a temperature of 40°C
